“Big Bear Developers recently completed the construction of our custom home. It was the second home they constructed for us. From the beginning, they were accommodating and knowledgeable about the entire building process and represented themselves honestly and professionally. They consistently went above and beyond to meet our needs, even communicating with us on days off. They came up with many changes and designs we would not have considered, and we used them all! They made us feel at ease, and that our input was vital. Thank you, Big Bear Developers. We love our new dream home!”
